

9-3: Review of the Data Dictionary

Vocabulary

- 1.DBA_* tables
- 2.ALL_* tables
- 3.Data Dictionary
- 4.USER_* tables

Try It / Solve It

1.

B)

2.

- The USER_* tables contin informatii despre obiectele ce le detii
- The ALL_* tables contin informatii despre obiecte pe care ai dreptul sa le folosesti
- The DBA_* tables contin informatii despre orice in database, nu conteza cine le detine

3.

```
SELECT object_name, object_type,status
FROM USER_OBJECTS
ORDER BY object_type
```

4.

```
SELECT object_name, object_type,status, user
FROM USER_OBJECTS
```

```
WHERE object_type IN ('FUNCTION', 'PROCEDURE') AND status='VALID'  
ORDER BY object_type
```

5.

-este o supervedere care listeaza toate Dictionary tables

-poate fi folosit ca un motor de cautare care sa arate numele si descrierea submultimilor
tabelor din dictionar

6.

```
SELECT *  
FROM DICT  
WHERE table_name LIKE '%USER%'
```
